

AUDIO

You may wish to walk the labyrinth in the company of a composed **soundscape of water**. If so, please ask the attendant for an MP3 player and headphones.

Safety notes

Please take care as you step into and out of the labyrinth.

Do ask for assistance if necessary.

Please keep to the path and be aware of other walkers.

Occasionally stray shingle may create an uneven surface.

Please be aware of the 'water line' exhibit hanging overhead.

And please wipe your feet as you leave to prevent damage to the church floor. Thank you!

“Only in contemplation of [water] do I achieve true self-forgetfulness and feel my own limited individuality merge into the universal”

Thomas Mann
